

AGRO TUBE

Product 4' Full Spectrum AGRO Tube
SKU T830G6F

Power Consumption 30W
Input Voltage 110 - 277V
Frequency Range 50~60Hz
Ideal Application Vertical Farming
Photon / W Up to 1.7
Lumens 1920
Lifespan >50,000 hrs
Light Beam Angle 120 Degree
Lensing Clear Plastic

Body Case Material Die Cast Aluminum (type 6063)
Suitable Distance Over Vegetation 12"
Vegetation Coverage Area 4' x 8"

Driver Options Universal Driver Option
 Type A+B Tube

AGRO TUBE FEATURES

- Broad spectrum T8 retrofit tube, suitable for the vertical farming industry
- Ballast compatible- 'plug and play' installation
- Custom spectra to allow maximum crop yields and overall plant health
